2011

Strategic Electronics Summit

29th June, 2011

HAL Convention Centre, Bengaluru

Today the Strategic Electronics sector presents an opportunity which the Indian industry cannot overlook. The production of strategic electronics in India has been growing steadily since 2007-08 from Rs 5700 Crores to Rs 6840 Crores in 2008-09 and is estimated at over Rs 7500 Crores during 2009-10.

This growth is further fuelled by the expanding budgetary allocation for defence sector which grew by about 12% from Rs.147,344 Crores in 2010-11 to Rs.164,415 in 2011-12. Of this, Capital expenditure, which mostly caters for modernisation requirements, accounts for Rs.69,199 crores.

The new Defence Procurement Procedure 2011 for Capital Equipment has come into effect from January 2011 and incorporates further refinements in the procurement process aimed at expediting and simplifying the purchase mechanism. The scope of the offset policy guidelines have been expanded to include civil aerospace, internal security and training within the ambit of eligible products and services for discharging offset obligations. With 40 per cent of the allocation reserved for capital acquisition, this offers an immense growth opportunity for domestic electronics manufacturers serving defence.

For the first time in India, a Defence Production Policy has been announced and the same is effective from 1st January, 2011. The objectives of the Policy are to achieve substantive self reliance in the design, development and production of entire range of defence equipments well as create conditions conducive for the private industry and SME's to take an active role in this endeavour.

In this scenario, a transformed and customized value-chain is the right way to realize the Strategic Electronics opportunity!

Program Details

- » A High Level Conference on key issues and business opportunities in Strategic Electronics
- » A mini exhibition to showcase opportunities for buyers and sellers
- » Pre-arranged Business to Business Meetings
- » Networking Session with High Tea

Registration

For Registering as a Delegate and/or Booking a Stall please Contact:

K Srinivasan - srinivasan@elcina.com, 9911445896 Yogesh Adalatwale - yogesh@elcina.com , 9911445891
ELCINA Electronic Industries Association of India, 422 Okhla Industrial Estate Phase III, New Delhi 110020
Phone: +91-11-26928053; Fax: +91-11-26923440; www.elcina.com

Objective of the Event

- » Create awareness about opportunities in the Strategic Electronics sector
- » Understanding of government support policies such as DPP and DOFA.
- » Bring buyers and suppliers from Strategic Electronics on one platform along with the government, supporting government organizations and Research establishments
- » Provide an opportunity for company's to showcase indigenous capabilities and exhibit special / new products, components or new technologies
- » Encouraging investment by SME's, Large Private and Public Companies as well as MNC's for developing strategic technical and manufacturing strengths
- » Invite global manufacturers & investors and enable JV's and partnerships between Global + Indian as well as Indian + Indian companies.
- » Bridging the gap between R&D, Government organizations and business

Conference:

**"Opportunities for Electronics Manufacturers
In Defence & Aerospace Value Chain"**

Conference Delegate Fee*

Rs 3000/- for ELCINA/SIATI Members

Rs 4000/- for others

10% Discount for 3 or More delegates from one organisation

*Service Tax @ 10.3% additional

Mini-Exhibition

Stall Charges*

9 sq Mtrs - Rs 27,000

6 sq Mtrs - Rs 20,000

10% Discount for ELCINA/SIATI Members

*Service Tax @ 10.3% additional

One to One Business Meetings

Reserved Buyer-Seller meeting area for pre-arranged meetings
