

screen-sizes, functionalities, etc. In such an environment, it is difficult for developers to write apps that work across all Android versions with different feature sets.

Smallest NAND flash memory chip

SanDisk and Toshiba have developed and fabricated NAND flash memory modules with 19nm process technology. The new process, which is the finest yet, has been applied to 2-bit-per-cell (X2) 64-gigabit monolithic chips to allow the highest single chip density of 8 GB. It will allow creation of 128GB devices using 16 chips for use in smartphones, tablets and removable storage devices with high capacities and

small form factors. The modules have also been equipped with Toggle DDR2.0 for enhanced data transfer speeds.

The 19nm memory die uses SanDisk's all-bit-line architecture with proprietary programming algorithms and multilevel data storage management schemes.

World's fastest graphics card

NVIDIA claims to have introduced the world's fastest and quietest graphics card. Powered by dual NVIDIA Fermi-class GPUs on a single card, the GeForce GTX 590 is designed for those looking to build the ultimate PC gaming rig.

With a combined 1024 NVIDIA CUDA architecture cores, 3 GB of GDDR5 memory, six billion transistors and over 2200 individual components—all packed into a 28cm (11-inch) dual-slot card—the GTX 590 delivers a staggering

CAUTION NOTICE

Notice is hereby given to all concerned including the Manufacturers, Merchants and Traders dealing inter alia with "LED Aviation Obstruction Lighting Device" Our client, Kumar Krishna Rohatgi of Binay Opto Electronics Private Ltd. is the Patentee of Indian Patent No. 188995 of 9th May 1996 relating to "LED Aviation Obstruction Lighting Device". Therefore, it would not be lawful for any person without the written consent, of our client, to indulge in any act of MAKING, PURCHASING, USING (AS END-USER/CUSTOMER), OFFERING FOR SALE, SELLING OR IMPORTING such device in India during the subsistence of this patent.

It is further made known to all concerned that any unlawful act by any person would not be acceptable to our client, who may decide to take legal action against the infringers for such wrongful act in a Court of Law.

All concerned in the Trade and Commerce and hereby requested to contact the undermoted address or any further details regarding the above and to avoid unnecessary litigation and/or legal proceedings.

Retrofit PowerLED Tube Light

The BINAY PowerLED Retrofit tubelight fits directly into a standard fluorescent tube luminaire or strip

- Wattage less than 50% of fluorescent system, with similar light output
- Operates from 100VAC to 260VAC (No flickering at lower voltages)
- Provides sharper visual clarity than fluorescent tube
- Life of 12 to 15 years, with a warranty of 5 years
