ULTRA-SLIM BUSINESS PHONE

THE AFFORDABLY PRICED AKAI CONNECT LEAF PACKS THE FEATURES EXPECTED IN A BUSINESS PHONE

AKAI Mobiles has launched a mobile phone with full QWERTY keypad and dual-SIM and dual-standby options. The USP of Connect Leaf is its ultra-slim metallic body in bar form factor which comes in two colour variants—black and red. Also, it comes with dual cameras, which include a primary 1.3-megapixel camera and a digital camera in front. You can access a host of social networking sites on this phone. The 5.6cm (2.2-inch) screen can display 262,000 colours with a resolution of 240×320 pixels.

Connectivity options include PC connectivity, Bluetooth (A2DP) and GPRS. The micro SD/T flash card slot lets you expand the memory to 8 GB.

The phone weighs 100 gm and is claimed to be one of the slimmest phones in this category with a thickness of only 9 mm.

INTERNET TVs

PANASONIC'S NEW FLAT-PANEL TVs WITH IPTV APPLICATIONS LET YOU CONNECT WITH THE ENTIRE WORLD

Price: ₹ 12,900 to ₹ 349,000

Panasonic has introduced flat-panel VIERA TV models compatible with VIERA Connect—a cloud-based Internet service that allows you to enjoy a variety of Internet content and online communication right in your living room.

Automatic control of the TV and peripheral devices according to your viewing and usage environment saves electricity without any hassle. With

an improved panel, phosphors with a short afterglow and louvre filter, the TVs not only give improved light-emitting efficiency for superior image quality but also consume lesser power. Other exciting features include fast motion refresh rates, game mode and wide viewing angle.

The 23 new models introduced vary from 48.3 cm (19 inches) to 165 cm (65 inches).

'SPEED' & 'STAMINA' MODES NOTEBOOK

SONY'S NEW LIGHT-WEIGHT VAIO S SERIES LETS YOU CHOOSE BETWEEN 'SPEED' MODE FOR FAST PERFORMANCE AND 'STAMINA' MODE FOR LONGER BATTERY LIFE

Price:
VPCS819GG/B - ₹ 109,900

Sony has launched a VAIO S series notebook with a 33.8cm (13.3-inch) screen in a 23.9mm thin, full-flat body. The notebook is powered by the second-generation Intel Core i7 proces-

sor and AMD Radeon HD 6630M GPU with 1GB VRAM. It has a performance switch that supports the dynamic hybrid graphic system. You can easily choose between 'speed' mode for fast performance and 'stamina' mode for longer battery life.

The 1.715kg notebook has a battery life of six hours, which can be doubled to 12 hours by using an optional extended battery. It comes with a backlit keyboard and a touchpad with multi-gesture functions for users working without a mouse.

The notebook features quick boot and fast operation and starts up within 17 seconds from shutdown.
