

DUAL-CORE ANDROID SMARTPHONE

THE LG OPTIMUS 2X GIVES YOU A FAST, HIGH-DEFINITION WORLD OF GAMES, MUSIC, SPORTS, INTERNET BROWSING AND MORE

LG Mobiles has come up with what it claims to be the world's first dual-core processor smartphone. The Optimus 2X (LG-P990) runs on Nvidia's new Tegra 2 chipset and features an HDMI connection so you can easily play your images, videos and music content on your HD TV in HD digital 1080p resolution.

The 10.2cm (4.0-inch) TFT capacitive touchscreen of the phone can display up to 16 million colours and includes accelerometer sensor, proximity sensor, gyro sensor and touch-sensitive controls. The 8MP camera features autofocus, LED flash, geo-tagging, face and smile detection, touch focus and image stabilisation.

The Optimus 2X runs on the Android 2.2 OS and is upgradable to Android 2.3 gingerbread.

HIGH-PERFORMANCE DIGICAMS

NIKON P300 AND P500 WITH BSI CMOS SENSORS EXHIBIT SUPERIOR, HIGH-SPEED PERFORMANCE

Nikon has expanded its COOLPIX P-series lineup with the launch of two new models. The P300 and P500 are equipped with BSI CMOS sensors that enable high-speed processing for

beautiful, blur-free images, despite shooting in dark or dimly lit surroundings. Both the cameras have a 7.5cm, approximately 921,000-dot TFT LCD monitor and can record full HD movies with stereo sound.

The 12.1MP P300 features a fast, f/1.8 lens for stunning landscapes. Optical zoom is 4.2x and digital zoom is up to 2x.

The 12.1MP P500 supports 36x optical zoom, up to 4x digital zoom and effective noise and distortion reduction. Backside illumination CMOS sensor, new dual image processors and image sensor shift+electronic vibration reduction function ensure superior image quality in both still images and movies.

P300—₹ 19,950
P500—₹ 23,950

SURROUND SOUND SPEAKERS

LOGITECH'S Z506 WITH 5.1 CHANNELS OF ROOM-FILLING SOUND BRINGS YOUR MUSIC, MOVIES AND GAMES TO LIFE

Logitech's new surround sound speakers let you connect nearly any entertainment device, including a PC, PS3, Xbox 360, Wii, iPod or DVD player. With 75 watts (RMS) of room-filling sound and a powerful subwoofer, the 5.1-channel Z506 brings your music, movies and games to life.

Featuring 3D stereo surround sound, the speakers

can convert two-channel stereo into an immersive surround sound and include a headphone jack for private or late-night listening.

The Z506 is easy to set up as all the cables are colour-coded. Gamers can connect the speakers directly to the gaming console's existing RCA cable.

Plus, the speaker set supports two devices connected simultaneously.
