

ACHIEVE YOUR POTENTIAL WITH Manipal Institute of Technology

Manipal Institute of Technology (MIT) was founded in 1957 as one of the first private engineering college in India. Today, the college is home to India's best student engineers who not only build Formula Cars, but also have made breakthrough innovations like Wireless Fetal Heartbeat Monitoring System, SMART Auditory Feedback Device, Isometric Muscle Endurometer and many more projects.

IAESTE, an International NGO provides opportunity for student community at MIT to carry out its internships (short as well as long-term) across the world.

Ranked among Top 5
private engineering colleges in India

More than 11 International University
Collaborations for student exchange

More than 12+ Industry Research Projects
with companies like Philips, GE, Infosys, IBM etc.

India's Largest Chapter of The International Association for
the Exchange of Students for Technical Experience (IAESTE)
