

Epson's EH-TW3600

Features

- Resolution: 1080p
- Brightness: 2000/1600 ANSI lumens
- Weight: 7.3/7.5 kg
- Dynamic contrast ratio: 50,000:1 or 200,000:1
- Proprietary 'DeepBlack' and 'C2 Fine' technology
- Built-in Epson Cinema Filter for colour-quality enhancement
- 2.1x optical zoom
- Vertical and horizontal lens-shift feature

Price: ₹ 119,000

BenQ's W1200

Features

- Brightness: 1800 ANSI lumens
- Contrast (Full On/Off): 5000:1
- Weight: 3.6 kg
- Size: 14x34x26 cm³
- Throw distance: 1.4-9.4 metres
- Image size: 76-762 cm

Price: ₹ 95,000

Brightness. The brightness of projectors is measured in terms of ANSI lumens. The more the lumens, the brighter the image. The ambient light of the viewing environment is the main deciding factor of how bright a projector you need. The following lumen outputs are recommended:

1. A minimum of 1000 lumens for dark rooms

2. At least 1500 lumens for rooms with some ambient light

3. About 3000 lumens for well-lit rooms

Keep in mind that many manufacturers mention a projector's lumen value based on data output and not video. The lumen output for video is typically not as high as data.

Source material. If a low-quality
