

Why Relicell is the Right Battery for You

Part of a Rs.1450 crore IT industry group

Wide range to suit any application

VRLA Batteries - 12V, 7AH to 12V, 245AH
2V, 100AH to 2V, 3000AH

Tubular Batteries - 12V, 40AH to 12V, 200AH
2V, 40AH to 2V, 600AH

Tested and certified by Central Power Research Institute, Bangalore (CPRI) and Electronic Test and Development Centre (ISTQC Directorate, Ministry of Information Technology, Govt. of India). **Download Test Certificates at**
www.relicellbattery.com

UL Certified

VRLA Batteries approved and registered in DGS&D for government purchases

54 Service Centres across India - Assured single window service support across India and countrywide installation support.

EFY Source Codes

Where can I get the source codes online, which were supplied in EFY CD earlier?

Nilesh Kumar Agrawal
Through e-mail

☐ We are working on the 'PIC Microcontroller-Based Electronic Lock' published in June 2010 issue. Where can we find the eclock.zip file to run the project?

Chouhan Vinay
Through e-mail

EFY: Please visit www.efymag.com website to download the codes. On the homepage of this website, click on 'Previous Issue' button on left side, select the month and year and then click on 'Download Source Code' link to download the code.

Application-Oriented Electronic Books

I have been reading EFY for the past five years. The magazine provides informative material every month. I want to suggest an application-oriented electronics book to my friend who is pursuing a degree in electronics. Please help.

Shibhikiran D
Mumbai

EFY: You may refer to 'Chip-Talk' and 'Simple Project' books—both published by EFY.

The first book is for beginners. It explains basic components and tools used at electronics hobby level, along with 40 tested simple projects with components and PCBs.

The second book contains domestic application-based projects including alarms, indicators and displays, games, timers and clocks. If interested, you may contact Kits'n'Spares on 011-26371661 or info@kitsnspares.com to get more details.

Construction Project

I want 'Microcontroller-Based Ultrasonic Distance Meter' project that was published under 'Construction' section in February 2008 issue. What

does a construction project mean? Do you provide the circuit with components?

P.K. Singh

Dolphin Device, New Delhi

EFY: In every issue of EFY magazine, there are three sections for the projects—Construction, Circuit Ideas and Software. Circuit Ideas section contains about five to six small circuit diagrams and their descriptions. Normally, there are two or three construction projects in every issue. These are bigger projects as compared to Circuit Ideas. Unlike Circuit Ideas section, Construction section contains detailed description of the project including PCB and component layouts besides other details.

Our associates Kits'n'Spares provide complete kit of some of these projects (Construction and Circuit Ideas) that include components, PCBs and project details. Visit www.kitsnspares.com website to see more details on the subject.

Projects on Robotics

I am a student interested in robots and robotics, but I don't know from where I should start. Please help.

Nitin Goyal
Through e-mail

EFY: EFY Tech Center conducts short-term course of ten days duration on robotics at its Delhi, Bangalore and Hyderabad centres. Please check the schedule for the respective training centres from www.efytechcenter.com website

Microcontroller Programmer

I have constructed many circuits that you have published in EFY. These days many projects in EFY are based on 89C51 and 89C52 microcontrollers. Where can I get the 89-series programmer and the details to burn the code into the microcontrollers?

Shamnad V.K.
