

HEWLETT-PACKARD INDIA

Rs 232,270 mn (2010-11)

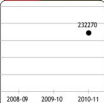

Hewlett-Packard (HP) brings together a portfolio that spans printing, personal computing, software, services and IT infrastructure at the convergence of the cloud and connectivity, creating secure and context-aware experiences for a connected world. The company recently announced its plans to initially invest \$1 million in support of a new Education Innovation Challenge Fund for India, led by a consortium of leading education organisations in India. The fund will grant public and private (not-for-profit) education institutions with the opportunity to pursue novel approaches to science, technology, engineering and maths learning for the twenty-first century. The company believes that video will dominate the Internet in India primarily due to the ease with which content in local languages can be accessed. HP Labs India is piloting the 'personalised video' application to understand user-preferences and also receive feedback for future enhancements.

COGNIZANT TECHNOLOGY SOLUTIONS

Rs 205,371 mn (2010)

Cognizant Technology Solutions, a provider of information technology, consulting, and business process outsourcing services, is dedicated to helping the world's leading companies build stronger businesses. Cognizant recently inked an agreement to acquire Conlogio Global Services Private Limited (Conlogio India), the India-based captive operations of Conlogio. The purchase price consists of a cash payment of approximately \$50 million. Together the companies expect to provide end-to-end business process and analytic solutions across the mortgage value chain, from loan origination, escrow, title and closing services through secondary markets, loan administration, and loan default management. The company is also setting up its unit at Infopark Kochi campus, giving a boost to the information technology sector in Kerala.

RELIANCE COMMUNICATIONS LTD

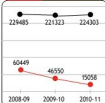

Rs 224,303 mn (2010-11)

Reliance Communications Ltd, the flagship company of the Reliance Group, is an integrated telecommunications service provider. The company with a customer base of over 150 million including over 2.5 million individual overseas retail customers, ranks among the top-four telecom companies in the world by number of customers in a single country. The company recently inked a deal for building and maintaining a data centre for HDFC Bank. The deal, worth Rs 14,000 million, is the largest outsourced deal in this sector and would span a period of 15 years. The company has also entered the tablet space in India by launching its Reliance 3G Tab—a fully-loaded Android tablet. Featuring a 17.8cm (7-inch) capacitive touch screen, the tablet is powered by Android 2.3 OS and carries a price tag of Rs 12,999.

NOKIA INDIA PVT LTD

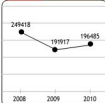

Rs 196,485 mn (2010)

Nokia, the world's largest handset maker, commenced its India operations in 1995. The company's operations comprise the handsets business, R&D facilities in Bengaluru and Mumbai, a manufacturing plant in Chennai and a Design Studio in Bengaluru. In May this year, Nokia's manufacturing facility at Sriperumbudur, Chennai crossed production of 500 million handsets, marking a significant milestone for the company's manufacturing operations in India and globally. The milestone was achieved in five years of its operations, marking Chennai's ramp-up among the fastest globally. Union Bank of India (UBI), together with Nokia, recently announced the commercial launch of 'Union Bank Money powered by Nokia' across India, starting with the national capital region. The service specifically targets users who do not have a bank account today, by providing access to financial services through their mobile phones and driving financial inclusion.
