3i INFOTECH LTD
Rs 25,697 mn (2010-11)

Mumbai-based 3i Infotech provides a range of information technology solutions for insurance, banking and finance, capital markets, mutual funds, e-Governance, manufacturing, retail and distribution. The company selected Capia to offer and deliver cloud and data centre automation services worldwide. This cloud-based service aims to reduce the capital and operating expenses through an intelligent orchestration layer for automated dynamic management of servers, storage, network and applications as a collective unit. 3i Infotech also recently inked a deal to sell its US-based Global Billing and Payments unit to an affiliate of Cerberus Capital Management LP for \$137 million.

ITI LTD
Rs 21,022 mn (2010-11)

ITI Limited, India's first public-sector unit (PSU), was established in 1948. The company offers a complete range of telecom products and total solutions covering the whole spectrum of switching, transmission, access and subscriber premises equipment. DoT is working on a grand alliance between service providers, BSNL and MTNL, along with research body C-DOT, gear maker Telephone Industries (ITI) and Telecommunication Consultants of India Limited (TCIL), to bring in operational synergy among these telecom PSUs. If the plan gets implemented, these companies will share their telecom assets and buy products and services at preferential rates in order to optimise central sector resources and withstand competition from private-sector rivals.

FINOLEX CABLES LTD
Rs 20,358 mn (2010-11)

Finolex Cables Ltd, the flagship company of Finolex Group, was set up in 1958 in Pune. The company positions itself as India's largest and leading manufacturer of electrical and telecommunication cables. Faced with cheaper alternatives like asbestos and galvanised sheets, the cable manufacturer is exiting the manufacturing of PVC sheets. The company noted in its annual report that its PVC sheets are used for roofing, signage and interiors. Since cheaper substitutes have found favour in these cost-sensitive applications, the company has decided to soon withdraw from this line of activity. The company is mulling over expanding its distribution network particularly in the north-eastern part of the country.
